## Unlimited Gin tonics!

### Loopuyt Gin launches the first Vir-gin

Made with the same 12 botanicals as the original Loopuyt Gin, Jaco van der Leun, master distiller at Loopuyt, created the very first alcohol-free gin. Hence the name Virgin! It took him approximately one year to create a drink that is indistinguishable from the real thing. Loopuyt Gin is known for its smooth, surprising taste resulting from a complex mixture of herbs, flowers, seeds, berries, fruits and fruit peel. An impressive balance of flavours,

Loopuyt is the first gin brand to develop an alcohol-free gin. With this, Loopuyt responds to the ever-growing group of people who prefer a healthy lifestyle and do not want to miss the gin-tonic experience.

**Loopuyt Virgin 0% is now available at various liquor stores, bars and restaurants**

## Making the city even more beautiful

### Hét Rotterdam Gala

For the third year in a row, Hét Rotterdam Gala will be organised at a special location. During the benefit gala, money will be raised for the "Rotterdam Mooier Maken" foundation, which has brought forth various beautiful projects to the city annually. With the money that was raised in 2019, the organisation supported the "green daycare for people with dementia" project. People with dementia can still function on many levels. For example, they can work in the garden under supervision. The first PowerGarden has recently been officially opened in a residential care centre in Delfshaven. This year's edition of Hét Rotterdam Gala is scheduled to take place on 6 June and is all about empowering women.
